Inner Eastside Issues and Priorities Questionnaire

The City of Portland's Inner Eastside Zoning Project will change zoning to allow for a greater variety of housing types in Portland's Inner Eastside neighborhoods. The goal is to make this desirable area – with great access to jobs, public transportation, and everyday needs – more accessible to all. The project study area extends roughly from 7th and 12th avenues eastward to around 60th Avenue, and from NE Fremont down to SE Powell.

As the project kicks-off, we are interested to learn about your thoughts on priorities, issues, and opportunities related to land use and housing. Your responses will help project staff develop zoning proposals.
